NO MORE IMPORT GOLD ENGAGED, BUT EX-CHANGE IS WEAKER.

THE PANKS WILL MALE A GOOD SHOWING TO DAY-THE STOCK MARKET DISCOUNTING

SILVER REPEAL WITH VIM. There was a further weakening in sterling ex change yesterday, which revived discussion in Wall Street of the possibility of a renewal of gold imports. There was a lessened demand for remit-tance, and the supply of commercial bills was increased. The \$500,000 gold engaged in London by Lazard Freres will be sent on the steamer Lucania to-day. No additional imports were arranged for by this firm. The recent sales of American securities this firm. The recent sales of American securities for European account have modified the prospect of gold imports, but the current may change next week, bankers say, if the Silver Repeal bill is pressed to a final vote. The discount rate for money in London is steadily advancing, and 2's per cent was reached yesterday, or nearly equal to the minimum discount range of the Bank of England. manded full 1 per cent. The rates for money in all the European capitals are hardening, and these influences combine to prevent a free movement of gold to this side. But there is no doubt about the free supply of money here. The bank statement due to-day is expected to show another large gain in cash holdings, although there were no special estimates of the result. There were \$40,000 Clearing House loan certificates cancelled yesterday, leaving the outstanding amount at \$1.625,000. Certificates to the amount of \$150,000 were called for retirement to-day.

The Wail Street sentiment continued builtsh, and further advances were goored in the stock market on the prospect that early next week at the latest the Silver Repeal bill will absolutely become a law. It is then expected that the conservative English investors, who have been holding back in fear of an accident to the reneal legislation, will come into the market with liberal purchases of American securities. The stock market's leader yesterday was Chicago, Milwaukee and St. Paul, which on sales of nearly \$4,000 shares rose to \$69,65%, against \$50, on Thursday. Atchison, Topeka and Senta Fe also was active, nearly \$20,000 shares changing hands, and the price rose from 21 to \$22,622. The cond stocks also showed that the recent realizing sales had been well absorbed, and that the effect of the recent Lackawanna-Vanderbilt deal was expected to be lasting. Delaware, Lackawanna and Western rose to 160, and at 1675 closed 255 per cent higher. Delaware and Hudson rose to 180 and showed a net gain of 196 per cent at 1294 at the close. The importance of the "deal" to New-York, Ontario and Western was reflected in a sain of over 1 per cent, at 174, other constituous advances were those of 25, per cent in Louisville and Nashville, 13, in Western Union Telegraph, and 13, per cent. American Sugar Refining fell from 1034 to 1014, but closed at 1025, against 10212 on Thursday.

GEORGE MEYER'S CREDITORS MEET. FORGERY HINTED AT BY HIS PARTNER, W. D.

The creditors of the firm of George Meyer met yesterday afternoon at No. 28 Waverley Place, to decide upon a plan of action to be followed in decide upon a plan of action to be followed in settling the affairs of the firm. The firm is com-posed of George Meyer and Henry J. Myers, as general partners, and William D. Barnes, as special partner, and did business under the name of George Meyer, carriage manufacturers, at Nos. 316, 318 and 320 Boulevard. Mr. Meyer disappeared on October 16, and a week later the firm assigned on October 16, and a week later the firm assigned to Mortimer C. Addoms, and gave no preferences. At the meeting yesterday Mr. Barnes appeared with his counsel, Mr. Taft. He made an offer to the creditors of 50 cents on the dollar; 10 per cent in cash, and the balance in notes payable in six and nine months. Mr. Barnes said he would assume all the liabilities, which are not believed to exceed 75,000. He also said that he was the firm's principal creditor, there being \$16,000 due him, but that as a means of settling up the business he would waive his claim until all the creditors had been paid. He hinted that forgery had been committed by some member of the firm, and that a loose manner of conducting the affairs of the company was apparent when the accounts were investigated.

investigated.

Maurice Untermyer, of Guggenheimer & Untermyer, No. 46 Wall-st., said yesterday afternoon:

"We represent creditors to the amount of \$12,000.

Our attachments were obtained on the theory of fraudulent disposition of property, based chiefly on the fact that just before George Meyer went away he drew a considerable sum of money from the Mutual State Bank. The assignment was made on October 23. On October 6 Meyer made a chattel mortgage to his partner, William D. Barnes, for \$35,600, and this mortgage is fraudulent so far as the creditors are concerned."

AT LAST.

Trenton, Oct. 27.-E. F. C. Young and G. W. Loper, receivers for the National Cordage Com-pany, filed their report with Chancellor McGill this morning. It shows actual and contingent amount of stock has nothing for an offset but the

good will of the concern.

The total amount of stock outstanding is \$5,000,-000 preferred and \$20,000,000 common.

The assets of every kind found by the receivers show a total of \$12,601,560 98. The habilities are

There are also contingent liabilities amounting to \$1,009,826. These are for indorsements, and will to \$1,009.826. These are for indorsements, and will eventually be payable by the company. The two classes of liability show a total of \$12,69.43568. No estimate has been made of the value of good will, trade marks, trade names, labels, etc. The company controls by ownership and leases twenty-three cordage and binder twine mills. Some of these, with long-established and valuable trade connections and custom, also the exclusive right to nections and custom, also the exclusive right to use in the cordage trade the firm or corporate names of the former owners of most of these mills. The trade thus established and controlled has a very large value.

The report shows that the various plants would have a value much greater if the company was reorganized, but as that is no part of their business as receivers, they have taken the actual value of land, building and machinery, and deducted for depreciation for forced sale at a given date. names of the former owners of most of these mills.

MOUNT VERNON.

This is the fourth and final day of registration for voters. Every citizen not yet registered should endeavor to enroll himself to-lay. There are many voters, strange to say, who do not know that the election law has been changed so that voters in this city must register in person on one of the registration days prior to election to be entitled to vote. The registration places will be open from 9 a. m. to 9 p. m., and as much interest is attached to the election of a School Commissioner, it is expected that many women will be registered.

The IIth Separate Company, National Guard, Captain Edwin J. Kindler commanding, will have a parade, review, exhibition drill, presentation of medals and a reception at its armory on Monday evening. Of the medals there are eleven for those who have maintained 100 per cent in attendance who have maintained 100 per cent in attendance and drills for the year... The decorations for the firemen's muster on Thursday were general and beautiful. Among those worthy of special mention were on the buildings of W. J. Coilins, ex-village president; Fire Commissioners Edson Lewis, Frank G. Bruce and J. A. Lockhart; ex-Treasurer John Berry, the drygoods merchant, and Fire Chief Edwin W. Fiske. The decorations on the fluor shops were characteristic and unique. On the front of one building was the fluore of a fireman on a ladder reaching up to a window. It was so natural that one of the visiting firemen, after the feast, shouted: "Come down, Laddy, it's all out come help drag the machine home." Rarely before hiss so much interest been shown by the voters of Mount Vernon-and this includes the women, who are entitled to exercise their rights of suffrage. In the election of School Commissioner The interests of the district were so badly served by the Democrat at present in office that those interested in education are determined to have "a change," and want to elect Wailer S. Allerton, the Republican candidate. He is a lawyer, a graduate of Columbia College and a New-Yorker by birth. He has been active in the Republican candidate.
